A message from the Producing Artistic Director

Our first two productions, *Violet* and *The Crucible*, made me very proud. If success is measured by the buzz I have heard about the quality of both shows, then we can count them very successful. We are about to bring to you a play about and for young adults: *This Is Our Youth*. Written by Kenneth Lonergan, who wrote the screenplay for the award winning film *You Can Count on Me*, the play is a brutal examination of young people trying to grow up with only themselves to rely on. *This Is Our Youth* was nominated for the Drama Desk Award for Best Play, and has recently been brought to Broadway by the famed Steppenwolf Theatre Company. Often uncomfortable, this comic drama is in turns heartbreaking, infuriating and endearing; and it is a great project for our young theater artists. Come and see the undergraduate talent we have in our midst!

A new production of *A Christmas Carol* has just started rehearsals. This version is breathtakingly designed. I think we are going to outdo ourselves with this one. You won't want to miss it, but I think if you do, you will hear a lot about it.

On another matter, I am very pleased and grateful to announce the support of Townes Lavidge Osborn and Jenny Banner for our new plays program. This program instituted last year with the commission of *The Open Hand*, written by Robert Caisley is an opportunity for our MFA actors and designers to experience developing a new play written expressly for them. Ongoing support of this commission by Ms. Osborn and Ms. Banner will help to secure an ongoing commitment of the Clarence Brown to developing new work – something that adds distinction and luster to our MFA programs. Thank you Townes and Jenny!

Congratulations!

The Clarence Brown Theatre was voted the **Top Theatre Group** by the Knoxville Mercury.

While David Keith was voted the Top Actor, David Alley was a popular pick along with Dale Dickey.

***M*A*S*H* Actor and Science Educator Alan Alda will Speak at UT November 1st**

Alan Alda, an acclaimed actor and science educator widely known for his role in the television series *M*A*S*H*, will speak at UT on Tuesday, November 1. Alda is best known for his 58-year career in entertainment and his 11 year role as Captain Hawkeye Pierce in the TV series *M*A*S*H*. An actor, writer, and director with six Emmy Awards and six Golden Globes, he will draw on his personal experiences to explain the importance of making science accessible to the public. Alan will deliver the second Ken and Blaire Mossman Distinguished Lecture at 6:30 p.m. in the Cox Auditorium of the Alumni Memorial Building. He will address students, faculty, and staff during the lecture, which is free and open to the public.

In 2009, Alan founded the [Alan Alda Center for Communicating Science](#), based in the School of Journalism at Stony Brook University in Long Island, New York. The center works to enhance understanding of science by helping train the next generation of scientists and professionals to tell their stories more effectively with the public, officials, and the media.

Congratulations to David Byrd

Congratulations to David Byrd on his appointment as a member of the Theater and Musical Theater Art Works Panel by the National Endowment of the Arts. As a Panelist David will be reviewing grant applications and making recommendations to the National council on the Arts based on whether or not the application represents the artistic excellence and artistic merit of the National Endowment of the Arts. David has already begun the review process and will soon be meeting with his panel for discussions.

Your Monthly Green Tip

The Mug Project is a campus-wide effort to eliminate single-use containers and bottles.

UT students, faculty, and staff can bring their own mug of twenty-four ounces or less and receive ninety-nine-cent drip coffee and fountain beverages, a savings of forty cents or more. The program also offers 15 percent off specialty coffee beverages. More than 90 percent of Volunteer Dining locations are participating, including Starbucks, Einstein's, Quiznos, and Subway. Offer is not valid at Chick-fil-A.

UT's 27,000 students consume an estimated 3,225 cups per day. Over the course of a year, that requires 485 trees, 290,000 gallons of water, and 360 million BTUs of energy—enough to power four households for a year.
